Group Business Manager

Business is not just doing deals and gathering profits, it is also providing tremendous service to the customers and consequently creating an unbreakable human relationship. It is this consistently maintained realization that made us the spearhead in the pages of Qatar business history.

As far as I am concerned, this is such a great responsibility to hold a big designation, since I have to exhort the corporate companies to continue voting for women to extend big responsibilities. In this mission, my team is my strength.

The world history in all concerns had showed us, no empire, business or individual had become rich without themselves enriching others.... Hence MANASCO Group will always act on the strategy of drawing from an inexhaustible source, that is, the source from the almighty Allah to build up the society's pillars.

Me and my crew are at point blank to make your world a better place.

*“Coming together is the Beginning,
Keeping together is the Progress and
Working together is the Success...”*
